## Force ATM

Hyosung is dedicated to making technology work for the humans who use it. Every ATM product, service, and support system is engineered to be reliable and flexible. We listen to our customers and continually improve our offerings to reflect their input. We bring that innovation to banking. It is commitment to human technology that has made us a dependable partner and global header in the ever-changing world of banking.

### USER EXPERIENCE

The brilliant 12.1-inch color display has capacitive touch function keys and a more elegant user interface. The integrated topper now has a brightness control (high, medium, and low) allowing the **FORCE** to be customized to any environment, from bright C-stores to dark nightclubs. Arrows at the card and receipt slots light up to direct the user to those areas. All with a 6K note capacity.

### SERVICEABILITY

Our engineers added a light in the vault to make it easier to cash load and service the ATM. Never again will someone need to hold a flashlight while trying to work inside. The new **FORCE** also gives maximum installation versatility. Four power cord holes allow the machine to be placed anywhere, even flush against the back wall. Plus, additional bolt-holes make it easy to replace any ATM with the **FORCE**.

## SECURITY

The **FORCE** has an optional camera that photographs the user during transaction and stores it with the associated transaction record. It can also display the camera view on the transaction screen to make the user aware of being filmed, thus thwarting potential misuse. An additional camera mount is provided to allow installation of a third-party camera for even more security.

## SERVICEABILITY

Wireless has quickly become one of the most prevalent forms of ATM communication. Now there's an option for protecting your wireless investment as well as ensuring uptime. The **FORCE** offers a new wireless mounting bracket and two additional power outlets: one for your wireless modem and another for any other device like a video topper. The bracket also keeps communication cables up and out of the way when accessing the top of the ATM and changing receipt paper.

## System Platform

Microsoft® Windows® CE 6.0

## Card Reader

- Dip hybrid card reader
- EMV level 1, 2 compliant
- Anti-skimming (option)

## Display

- 12.1" wide color TFT LCD
- Privacy filter (option)

## Communication

TCP/IP, Dial-up

## Power Supply

AC 110-240 V, 50-60 Hz

## Security

- UL 291 Business hours safe
- UL 291 Level 1 safe (option)
- Electronic combination lock
- Security camera
- EPP privacy shield

## Input Type

- 4x2 Touch function keys
- PCI compliant EPP, T-DES, DES, RSA

**NPS ATMS**

[www.npsbank.com/atm](http://www.npsbank.com/atm)

## Cash Dispenser

- 1,000 notes cassette
- 2,000 notes cassette (up to 3)

## Additional Features

- Lead-through indicator
- Audio jack
- Speaker
- NFC reader (option)

## Dimensions

- Height: 1,433mm (564")
- Width: 400mm (15.7")
- Depth: 585mm (23.0")
- Weight: 130kg ( 286.6 lbs)

## Environmental Conditions

- Temperature: 0°C ~ 40°C ( 32°F-104°F)
- Humidity: 20%-85%

## Printers

80mm Graphical thermal receipt printer

Internal components may change with the introduction of new technology

## **USING AN EXPERT IS KEY**

With 20 plus years of experience we can work with your company to design a program that runs through one platform and offers your clients all the different ways they want to pay.
