# Free up operating cash for your business.

With the ATM industry's forever changing regulations getting tighter with bank and government background checks, plus investigations on your business, Nationwide Payment Systems (NPS) understands how running an ATM business can be overwhelming.

If you're tired of the hassles of keeping your ATM up to TDES, ADA, PCI and now EMV, not to mention tying up thousands of dollars in operating cash, we have an ATM program for you.

## Responsibilities of owning your own ATM

- Government/bank background checks and investigations on your business
- Excessive bank fees
- The hassle of Reg. E claims filed against your business
- ATM downtime and maintenance
- Mandatory regulations changes to hardware and software
- Having THOUSANDS of your operating dollars tied up in an ATM(s)
- AML compliance

## Benefits of the NPSATMS Cash Alliance Program

When you participate in the NPSATMS Cash Alliance Program, your business can realize multiple benefits:

- Free placement of an ATM in your location where your customers will have access to their cash.
- NPSATMS will pay YOU monthly commissions.
- Maintain ATMs to government and banking regulations.
- We will service the ATM, deal with Reg. E claims, and ensure it's loaded with cash.
- Our team monitors the ATM daily to maximize operations and looks for errors, low cash statuses, or any issues that would impede the operation of the ATM.
- We have a full staff available for correcting, repairing and keeping your ATM operational.

To reap the rewards of owning an ATM without all the hassle that goes along with it, let NPSATMS design a customized program that's just right for you.

### ***USING AN EXPERT IS KEY***

With 20 plus years of experience we can work with your company to design a program that runs through one platform and offers your clients all the different ways they want to pay.
