NPSATM - CASH Alliance

The **NPSATM CASH Alliance** was born out of a need for NPSATMS's to cash load and service ATM's for our client. In September of 2017 the first NPS vault was added in Pompano Beach, FL. Since then 10 new vaults have been added all across the country.

Through most of 2019 the NPSATM CASH Alliance program only vaulted for and serviced locations owned and operated by Payment Alliance as it continued to take shape and develop. In late 2019 the NPSATM CASH Alliance program added more cities.

This program provides business owners with Security, Safety for their Customers and Employees, all machines are monitored remotely and all cash is insured. This is not like any other Cash Vaulting service; we have armored car and techs on the road to service your locations.

Why Choose NPSATMS?

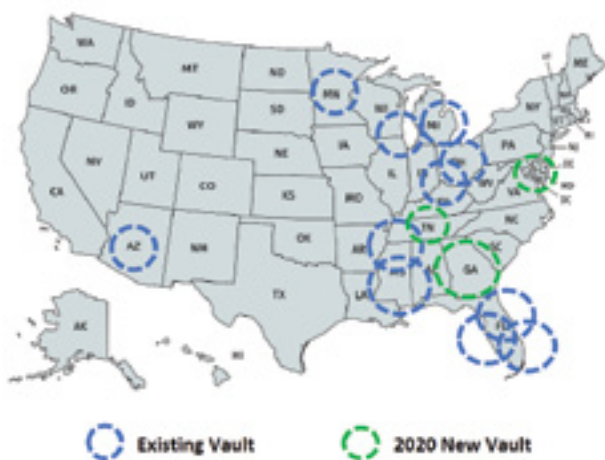

The NPSATM CASH Alliance program is not like any other cash vaulting, service provider in the industry today. NPSATM employs its own team of loaders, technicians and vault managers at each branch. NPSATM maintains armored transit vans, owns the lease to each building and manages 100% of the cash forecasting on all 1,000+ ATMs NPSATM services. NPSATM has complete control over every aspect of the business, because NPS does not use outside providers.

Why Choose NPSATMS?

Unlike most other armored cash loading and servicing programs, NPSATMS was designed to service non-bank ATMs. The cash forecasting system is designed around the monthly cycles of non-bank ATMs. Cash loaders and technicians are trained on non-bank Genmega and Hyosung ATMs, so that they can quickly and possibly even preemptively make fixes on ATMs.

What's Included?

- Cash loading of the ATM
- eRMS - Remote Monitoring and Technical Support
- No Charge service calls
- Wireless or Wired Internet
- Single point of contact
- Cash forecasting and prompt loading - let us know about upcoming events
- Terminal uptime monitoring
- Software updates performed on all locations when new software becomes available

USING AN EXPERT IS KEY

With 20 plus years of experience we can work with your company to design a program that runs through one platform and offers your clients all the different ways they want to pay.
